Energy for Afghanistan

MWp Photovoltaic Systems by Zularistan

Zularistan Ltd. is an Afghans owned fast growing Solar Energy Company active in Afghanistan. Zularistan Ltd is supported and provided with all types of technical assistance by a German company, Solifant Sonnen Plus GmbH. Zularistan Ltd has its presence across Afghanistan. The company has executed solar energy projects with different clients and donors in more than 18 provinces of Afghanistan. We have produced 2.2 Megawatt solar powers in Afghanistan through our various projects.

Similarly, we have installed more than 3000 Solar Street Lights in different provinces. Zularistan Ltd has teams of academically and technically qualified personnel who can carry out any solar system project in any province of the country. Zularistan is continuously striving for client's satisfaction in order to increase its cli-entele as much as possible through its quality work while utilizing its professionals. Zularistan is fully aware of the standards of ISO 9001-2008, 14001-2004, CE, IEC, and TUV and hence comply with it while executing a project. All products of Zularistan Ltd are warranty protected.

Zularistan is dealing with all kinds of solar energy systems:

- Solar Power Systems (Kilowatt to Megawatt capacity)
- Solar Cold Storage Systems/Solar Air Conditioning
- Solar LED Lighting Systems
- Solar Water Heating Systems
- Solar Hybrid Systems for Telecom and Industries
- Solar Water Pump Systems (Domestic and Irrigation)

Zularistan Ltd has maintained a pool of customers which includes UNOPS, USAID, USACE-AED, PRTs, GTZ, NSP, Norwegian Aid, Action Aid, UN-Habitat, German Agro Action, JICA, IRG/ACEP and MRRD etc.

- Preliminary
- Geotechnical investigation
- Montage
- Voltage connection

We plan your solar plant individually, with coordinated solar parts and construction groups only from producers who are known for their superior quality products. Due to higher product qualities we are able to grant a warranty for many years. Construction is carried out only with qualified staff holding experience in the construction and assembly of these materials from working on numerous megawatt-plant projects.

Thanks to our qualified construction team we can ensure you a professional and high quality construction of your plant. We provide advice from the beginning to the finalization of your solar plant.

Solar Power Systems

built by Zularistan

A solar electric or photovoltaic (PV) system can be a reliable and pollution-free producer of electricity for homes, offices, schools and hospitals etc. Solar PV systems also provide a cost-effective power supply in locations where it is expensive or impossible to send electricity through conventional power lines.

PV systems, like all solar technologies, function most efficiently in all the provinces of Afghanistan, which receives the greatest amount of solar energy.

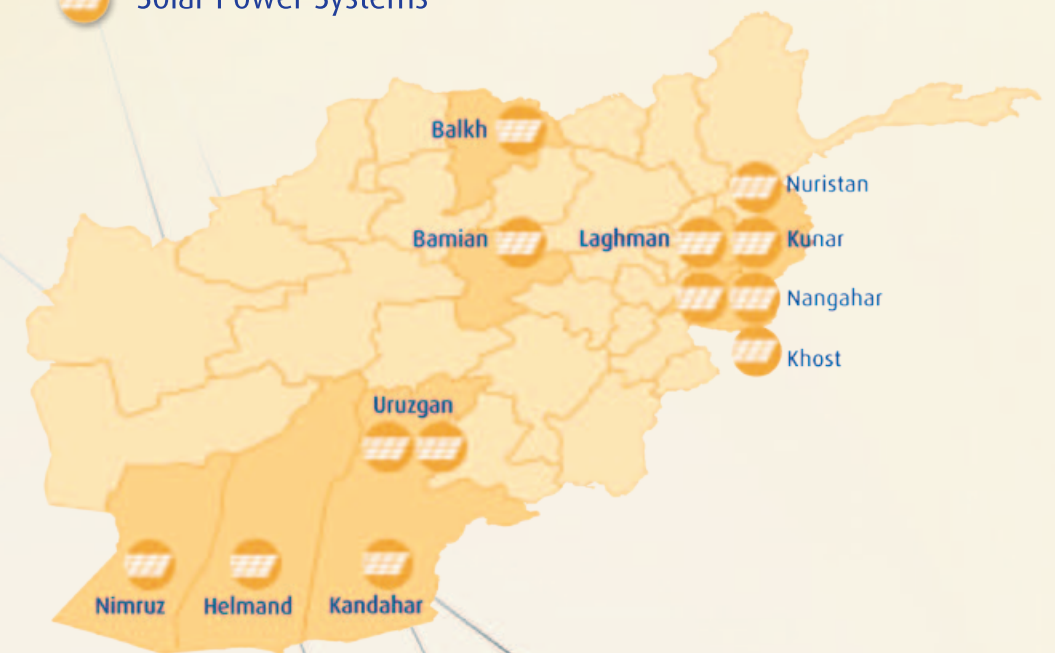

Because of their modularity, PV systems can be designed to meet any electrical requirement, no matter how large or how small. You can connect them to an electric distribution system (grid-connected), or they can stand alone (off-grid).

Zularistan Ltd permanently provides solar power systems of different scales to hundreds of customers across Afghanistan every year. Our provided solar power systems have enabled the beneficiaries to have consistent power supply without any environmental issues.
